Re: City Manager,

I am writing this email to request the opportunity to appear before city council. I wished to discuss a problem I am having with the bylaw office in regards to my perception of the Moose Jaw City Bylaw office not enforcing a clearly stated city bylaw. The bylaw I am referring to is listed on the PROPERTY MAINTENANCE AND NUICANCE BYLAW, which is listed on the City of Moose Jaw website.

The bylaw reads on page 9

Light

12. No owner of a property shall cause or allow "any" light fixture attached to that property or illuminated signage to "shine directly" into the "living or sleeping" areas of an adjacent dwelling house or cause a nuisance to an adjacent property.

The three reasons that I have been given directly on three different occasions by the Moose Jaw City Bylaw office, I find are unsatisfactory. I am also not satisfied with the recommendation that "I could close my blinds". Please advice on procedure for speaking before council. Also any information on any other appeals process would be greatly appreciated.

Yours Sincerely,

Kathi Hagman
