

Feb. 3/20

Moose Jaw City Council
228 Main St. N.
Moose Jaw, SK S6H3J8

Dear Veronica Blair,

RE: Rezoning Application for the empty lot on 480 Athabasca St. E.

I am writing on behalf of Nexii Building Solutions to answer some questions that Michael [redacted] had asked in email/phone call to us regarding the requested rezoning.

As well as overflow employee parking, our need for the lot would also be for storage of our concrete panels and components used for the assembly of our panels. The lot would also be needed during the final loading, shipping and receiving processes of palletized material that is incorporated into fabricating Nexii panels.

We assure council that our intent is to always keep the lot orderly and safe for the neighborhood.

We will be sending a representative to the next council meeting on Feb. 10/20. His name is Andrew Sloane and he is our Quality Assurance manager.

Thank you for your consideration.

Ben Dombowsky,
